

Fourteen Years of Acta Dermatovenereologica Croatica

We in Editorial Board of Acta Dermatovenereologica Croatica (ADC) are very proud to have a journal that has a good place in the world of indexed journals.

In 2006, all ADC issues were put on web site where copies of the articles published in ADC are available. PDF offprints are provided free-of-charge to corresponding authors. On-line submission and review process is much easier this way. In each ADC issue, 8-9 articles were published, tending to upgrade the index level. We hope the ADC impact factor is on a rise, having reached approximately 0.22 in the last year. With ADC, we have established fruitful collaboration all over the world. It is a wonderful feeling to be close to colleagues from different countries around the world. More information on ADC can be found at <http://adc.mef.hr>. I am very proud as Editor-in-Chief to be invited to the International Advisory Board of the Hautarzt journal, and to have an opportunity to

exchange ADC with such a prestigious journals as Hautarzt and JDDG. I would like to thank some of the key persons from the ADC Editorial Board who have invested great effort in writing papers and doing expertise for ADC, among them Professors R.A. Schwartz, R. Wolf, F. Gruber, I. Dobrić, Th. Ruzicka, E. Aberer, A. Prohić, J. Szepietowski, A. Pašić, A. Katsambas, and also our Correspondent Editor B. Marinović, English Language Editor A. Redovniković, and Editorial Assistant G. Dučkić.

What will ADC offer in addition in Volume 15? More opportunities for publishing scientific research articles by young researchers, articles for column correspondence and Letters to the Editor, as well as the best scientific presentations from our continuing medical education courses planned to be held in 2007.

Editor-in-Chief
Jasna Lipozenčić
